To Whom It May Concern,

The American International College Office of Diversity and Community Engagement, along with the Career Services Office was fortunate to bring Miles Washburn to the campus on March 21, 2013 to speak to our students about Risk Management and also the workshop on Working on your Image. Mr. Washburn's workshops were amazing and his interaction with the students was phenomenal. His messages during the each session were powerful and engaging. All of the information given was important and impactful as well.

Mr. Washburn stayed and held conversation with students, created different scenarios for them to work through and also gave them solutions to each problem that they were confronted with. Miles Washburn is a great individual to have on our campus and we cannot wait to have him back in the near future. If I am needed to answer any questions about Mr. Washburn and his workshops, please do not hesitate to contact me. 413-348-0215 or by email at: keshawn.dodds@aic.edu

Best regards,

Keshawn Dodds
