March 7, 2013

Dear Miles,

Thank you so much for speaking at the University of New Haven on March 6, 2013.

Your presentation on breaking bad traditions truly resonated with the Greek leaders on campus. The students were able to connect with you and you provided them with a lot of food for thought. As you know our Greek community is currently undergoing a lot of transitions and you were able to give them a greater perspective into building a strong Greek community.

Your message was strong and effective. You have a great ability to engage the students in real conversations that push them truly think about the larger Greek community as opposed to just their individual organizations. Since your presentation students have been commenting on how much they truly enjoyed your visit. In fact at our last chapter president's round table a lot of what you spoke about in your presentation was brought up; the presidents reiterated your message of promoting positivity and making sure that when people look into the window they only see good things.

Thank you again for spending time with the UNH Greek community. It was truly a pleasure working with you and I look forward to working with you in the future.

Sincerely,

Shelissa Newball  
Assistant Director of Student Activities
